SHOES—ALEXANDER.

The Difference

In the cost of Shoes that fit and those that do not is nothing. The difference in the wear and comfort is everything. The reason some stores cannot give you a good fit is simply because they do not carry enough stock to have all widths and shapes.

The Strike Ended.

The strike on the Wheeling division of the Baltimore & Ohio is ended. The miners at the Germania and Nottingham, owned by Henry Floersheim, have returned to work at the 54-cent rate. The ending of the strike was the result of a compromise. Mr. Floersheim wanted to enforce an iron-clad contract. The miners objected to this and wanted a 60-cent rate. Mr. Floersheim agreed to withdraw the iron-clad rule if the men would accept the 54-cent rate. This they did and the miners returned to work yesterday.

THE GOVERNOR.

He Tells an Intelligencer Man How the State's Affairs

ARE OCCUPYING HIS ATTENTION

Almost to the Exclusion of Everything Else—Unjust Criticism Because He Failed to Interfere with the State Boards, Especially the Penitentiary Board—A Pardon Board is Needed—Invitations the Governor will Accept.

Governor Atkinson was seen by an Intelligencer reporter as he was leaving for Charleston yesterday, and was asked how things were going at the Capital. He is apparently in good health, having fully recovered from the severe cold contracted in New York April 27. His reply was:

"We are doing the best we can. I have appointed all of the State Boards, except three, and these will be made up soon. This will end a large amount of selection of the right kind of men as the managers of our several state institutions. I have endeavored to select the very best men in the state as members of these boards, and in no instance have I sought to dominate them as to the selection of their subordinate officers. They are responsible to the state for a proper management of these institutions, and therefore should be allowed to use their own judgment as to the selection of the men under them.

"From the first, I have referred all applicants for positions directly to the boards, and I mean to carry out to the letter what I have said to all of these applicants for positions. I am, however, being roundly abused by quite a number of persons who failed to secure places at the hands of the directory of the penitentiary. They write me and say that I should have interfered in their respective cases, and if I had done so, they would have been successful. They are all good men, and are especially deserving, but the board used its own judgment and these gentlemen failed to succeed. It is very wrong for these friends to censure me because they were not successful. They do not stop to consider the fact that there were upwards of 800 applicants for twenty-seven places at the penitentiary, and that not one in a hundred could secure places, nor do they consider how unjust it would have been for me to interfere with the Board. I think, later on, they will let up on me, and be more reasonable in their criticisms.

"I am trying to do the best I can, and no one can do more. The work of the Governor's office is very onerous and takes all of my time.

"We need a Pardon Board badly. Our State is too large to require the Governor to examine and pass upon all the applications for pardon. It will take practically all of my time to pass on pardon cases.

"I have calls all over the State to attend public gatherings, which is a heavy draft upon me. I can accept only an occasional invitation. When my public duties will allow, I intend to accept as many of these invitations as I can, in and out of the State."

Lecture on Cooking.

The Cooking lecture given by Mrs. T. Rainbow in Arden Hall for the benefit of the King's Daughters Day Nursery was largely patronized by the elite of Wheeling and vicinity, and proved a financial success. The scientific manner in which Mrs. Rainbow prepared the various dishes demonstrated beyond a doubt that her skill had not been over-estimated; the case, yet dignified style of preparation stamped her as an accomplished artist in this, her chosen profession. Mrs. Rainbow is certainly a most valuable acquisition to this community, and as it is her intention to continue these lectures in Wheeling, every housewife will do well to attend them and secure practical instructions which will prove beneficial to their husbands and families, as entirely new dishes will be taught at each lecture.

A BOTTLE of Dr. Wood's Norway Pine Syrup in the house saves doctors' bills, saves trouble, and very often saves precious lives. Gives almost instant relief in cases of coughs, colds, or lung troubles of any sort.

Rocked on the Crest of the Waves.

The landsman, tourist or commercial traveler, speedily begins, and not only begins, but continues, to feel the extreme of human misery during the transit across the tempestuous Atlantic. But if, with wise prescience, he has provided himself with a supply of Hostetter's Stomach Bitters, his pangs are promptly mitigated, and then cease ere the good ship again drops her anchor. This is worth knowing, and thousands of our yachtsmen, summer voyagers, tourists and business men do know it.
